SUMMARY

Semi-Senior Web Developer from Argentina, focused on creating efficient solutions and process automation. Experience in web development, productivity, and teaching. Advanced English proficiency, with communication skills and adaptability to international teams.

EXPERIENCE

Full Stack Web Developer

ExxonMobil Argentina

December 2022 - Present, Argentina

- Developed, tested, and maintained enterprise web applications using ServiceNow, C#, .NET, HTML, JavaScript, TypeScript, CSS, and React, impacting thousands of employees globally.
- Ensured applications met user and customer requirements, achieving over 90% satisfaction in internal evaluations.
- Developed web tools such as a Carpooling App and a Birthday Calendar, reducing administrative time by 25% through process automation with Vue.js, Vite, Node.js, and Tailwind.
- Participated in the design community as a developer and attended workshops on user-centered design (UX/UI).

Productivity Solutions Analyst

ExxonMobil Argentina

June 2021 - December 2022, Argentina

- Automated over 10 key business processes using Nintex, SharePoint, and web development tools, improving operational efficiency across various business areas.
- Trained 2 new employees in productivity solutions, enhancing their performance from their first month.
- Implemented customized solutions that reduced over 90% manual errors and optimized repetitive task management.

Productivity Solutions Intern

ExxonMobil Argentina

February 2021 - June 2022, Argentina

- Assisted in developing internal productivity tools to optimize processes across more than 5 company areas.
- Contributed to the implementation of automated SharePoint solutions, improving process efficiency for over 1,000 employees.
- Learned and applied agile methodologies in solution development, collaborating with cross-functional teams.
- Helped identify improvement opportunities, proposing solutions that reduced processing time for repetitive tasks.

Mathematics Teacher

Nueva Escuela Argentina 2000

August 2021 - February 2022, Argentina

- Taught mathematics in English, successfully preparing over 50 students for Cambridge exams.
- Managed and guided 1st and 3rd-year secondary school students, adapting content to their understanding levels and promoting effective learning.
- Developed personalized educational resources, such as exercises and exams, to address the specific needs of each group.

EDUCATION

Electronic Engineering

Universidad de Buenos Aires • Argentina
